## STAGE ALL SET FOR EL PASO PHOENIX ROAD RACE SUNDAY

With the stage all set for the event, what promises to be the speediest and hardest contested road race ever held between El Paso and Phoenix will start from the Texas city at 6 o'clock tomorrow morning. The first car is due to reach Bisbee at between 2 o'clock and 2:30 o'clock in the afternoon, when they will go into control until 6:30 o'clock Monday morning, when they will begin the second leg of the 500-mile trip at 5-minute intervals.

The distance to be covered by the 43 cars in the classic is 540.8 miles. The distance to Bisbee, the night control station, is 283 miles, leaving 257.8 miles to be covered on Monday.

The first car to leave El Paso will be a Packard owned by H. E. Downey of Lowell, and the last to be given the starting signal will also be a Warren district car, a Ford owned by Thomas & Davis of Bisbee. Two hours and 48 minutes will elapse between the time the first car leaves and the last is started, the intervals between each car being four minutes.

As soon as the cars reach Bisbee they will be taken in charge by J. A. Kempton, chief of police, who will be in charge of the control station, which will be on Main street along the Phelps-Dodge store to the depot. A space about 10 feet wide along the store and warehouse will be roped off and the cars will be guarded during the night by special officers. The first car will leave for Tombstone at 6:30 o'clock Monday morning.

The purse for the winners totals \$11,500, and the first prize is \$7800. Of this amount the El Paso chamber of commerce gave \$5000; the Arizona Fair association \$5000; Bisbee \$1000, and Tucson \$1000. The first race, run in 1913, was won by Jed Newkirk in a Simplex, which is also entered in the present event. The race in 1914 was won by Hugh B. Miller in a Pope-Hartford.

The average speed per mile in the 1914 race was 27.1, and it is being predicted freely that this will be raised tomorrow and Monday to at least 40 miles.

The chief towns through which the racers will pass are Deming, Lordsburg, Rodeo, Douglas, Bisbee, Tombstone, Tucson, Florence, Mesa and Tempe.

All the roads in Cochise county will be in first-class shape when the rac-

ers come through according to Dr. N. C. Bledsoe, who is in charge of the race arrangements for the county. The stretch between Rodeo and Douglas has been smoothed and danger signals were placed yesterday.

To prevent racers from taking the road by way of Benson, a special guard will be placed to see that the cars go via the Empire ranch. A special request has also been issued that the people of the Warren district keep off the Bisbee, Warren and Osborn road during Sunday after noon. Traffic on the Douglas road will be shunted to the valley road during the morning and afternoon.

On Monday morning the street cars will not run up Tombstone canyon after 6:30 o'clock in the morning until the last racer has left the stand. Traffic coming into Bisbee on Monday morning must arrive here before 6:30 o'clock or it will be held up until the contestants have left for Tombstone.

## Legion Masquerade Features Halloween

One of the big features of the Halloween celebration in Bisbee last night was the masquerade ball given by the local post of the American Legion at Eagles' hall, which had been decorated especially for the affair.

The prize for the best woman's costume was won by Miss Naomi McAllister, and the prize for the men was awarded to Charles McManhon, who personified Charlie Chaplin. The prize waltz was won by Mrs. Campbell and Mr. Gillespie. Masks were taken off at 11 o'clock.

### MENU FOR TODAY

cakes and syrup, coffee.

LUNCHEON—Creamed salmon on toast, sliced tomatoes, raisin pie, tea.

DINNER—Bean soup, stuffed pepper salad, brown bread and butter, floating island, wafers, coffee.

Safety  First

When you buy meat, make the butcher show you the U. S. Government Inspector's stamp and rest assured that you are not eating a steer that had tuberculosis, or a hog that died of cholera.

The rancher who slaughters a few cattle and sells them to your local butcher is not a veterinary and is not posted on the methods of telling if an animal is diseased.

We have a U. S. Government Inspector at our Packing House at Tovrea's (Near Don Luis)—an expert veterinary—who carefully examines every animal killed and who puts the U. S. stamp of approval on only those found to be sound, healthy and fit for human food.

Safety first! Your health is the best asset you have. Don't run the risk of ruining it by eating infected meat.
